## TECHNICAL SKILLS

---

**Programming Languages:** HTML, CSS, JavaScript, Django, Python, React, Tailwind CSS, Bootstrap, SQL

**Soft Skills:** Problem-Solving, Active Listening, Adaptability, Analytical Thinking, Team Player

## PROJECTS

---

### MEDIPLUS WEBSITE

*Real Time Project*

Feb 2024 – May 2024  
*React.js, Tailwind CSS, Django*

- Maintained API for healthcare website to provide a transparent, end-to-end ecosystem.
- Enable pharmacists and dealers to open their own online stores and interact with clients directly.
- As a result, MediPlus will be able to run their company more independently and won't require middlemen.

**Frontend Link:** <https://medi-plus-beta.vercel.app/> **Backend Link:** <https://backendmedi.vercel.app/>

### SIGN LANGUAGE TO TEXT AND VOICE CONVERSION

*Natural Language Processing*

Jun 2023 – Aug 2023  
*Python, Open CV*

- Aim was to create a system that can convert Sign Language into text than into Speech.
- It eases the communication for people with speech disability.
- Developed this as Final Year Project.

## EXPERIENCE

---

### Web Developer Intern

*Ten Company*

Feb 2024 – May 2024  
*Noida, New Delhi*

- Developed and maintained websites using HTML, CSS, JavaScript, React.js, ensuring responsiveness and cross-browser compatibility.
- Conducted multiple code reviews of peers.
- Utilized version control systems like Git to manage codebase and coordinate with team members.
- Assisted in the implementation of back-end using frameworks such as Django

## EDUCATION

---

### Siddhant Institute of Computer Application

*Master's Of Computer Applications, Percentage – 78.48*
